1976 editorial index

Accuracy, economy & speed assure roll forming growth ..... July pg. 23
A dialogue on selecting electric heating equipment for the forge plant ..... May pg. 23
Adjustable drilling device wins first prize in Zinc Institute's Canadian Student design competition ..... August pg. 52
ADCI reports improved industry sales, expanding markets and new applications ..... December pg. 41
Are your forgings candidates for automatic production? ..... September pg. 113
Automatic hot former speeds parts production ..... December pg. 36
Bar handler loads and unscrambles ..... May pg. 55
Beating the high cost of plating small die castings ..... March pg. 23
British forging technique recycles scrap ..... June pg. 37
Casting one part inside another solves tough design problem ..... December pg. 27
Casting operation turns refuse into profits ..... June pg. 44
Chinese to forge on 12,000-ton automated line ..... March pg. 49
Cold heading capabilities expand non-fastener applications ..... April pg. 49
Cold metal shaping grows in small components market ..... February pg. 30
Gordon Curry articles ...
A Christmas gift ..... November pg. 18
Be prepared ..... December pg. 14
New Year's resolutions ..... January pg. 211
Public relations ..... July pg. 14
Purchasing: the door to engineering ..... May pg. 16
Responsibility ..... June pg. 21
Sales by auto — Part I ..... August pg. 20
Sales by auto — Part II ..... September pg. 10
Sales: is the sale all that counts? ..... March pg. 11
Sales: the "keystone" ..... February pg. 15
Suggestions ..... October pg. 23
What makes success? ..... April pg. 18
1976 Custom Producers Showcase ..... April pg. 27
1976 Custom Producers Showcase winners ..... August pg. 36
Demand for stainless shell castings increases ..... February pg. 25
Design competition winners point out new markets for P/M parts ..... August pg. 55
Designers' guide to roll forming ..... April pg. 27
Design profiles circular parts with rotary roll forming ..... December pg. 40
Die casters directory ..... January pg. 10
Die casting (materials & equipment) directory ..... January pg. 87
Die casting "Profile '77" ..... November pg. 34
Die castings are important on election day ..... March pg. 29
Die cast zinc computes savings ..... October pg. 47
Die temperature control is essential for efficient thin wall die casting ..... December pg. 33
Efficient casting production begins with design ..... June pg. 51
Elements of induction heating ..... July pg. 19
Exhibitors list growing for Materials Show ..... September pg. 117
Extruded microfilm reader cabinet wins grand prize in annual design competition ..... May pg. 58
Extruded zinc offers good properties and attractive finishes ..... February pg. 29
Extruder performs complete job for new tennis racket frame ..... November pg. 55
Extruders & drawers directory ..... January pg. 30
Extrusion (materials & equipment) directory ..... January pg. 123
Extrusion performs better for half the cost ..... March pg. 45
Extrusion "Profile '77" ..... November pg. 38
Extrusions, die castings make shower door leakproof ..... July pg. 29
Fall conference to study methods of forging noise control ..... April pg. 55
Ferrous P/M explored by A. O. Smith-Inland winning papers ..... March pg. 34
Final stages of scheduling for 1976 Materials Show focus on topics, speakers ..... April pg. 64
Forge hammer of the future: will it be steam or air? ..... May pg. 65
Forgers directory ..... January pg. 38
Forger uses efficient bar end heater and reaps many benefits ..... August pg. 49
Forging heating conference aims at energy conservation ..... March pg. 50
Forging (materials & equipment) directory ..... January pg. 128
Forging "Profile '77" ..... November pg. 40
Forging "Showstoppers" ..... June pg. 70
Forging "Showstoppers" ..... August pg. 60
Forming Equipment Symposium promoted productivity ..... August pg. 56
Free loop accumulator boosts roll forming productivity ..... May pg. 33
Furnaces & accessories for your heating applications ..... July pg. 32
How die castings compete with plastics ..... March pg. 25
How technology strengthens the case for die castings ..... March pg. 23
How to sell die castings more effectively ..... October pg. 41
How trim presses can reduce production costs ..... May pg. 57
Impregnation expands P/M applications ..... June pg. 57
Improving productivity in the forge plant ..... May pg. 21
Integrated forming system makes drawer bodies for less ..... November pg. 51
International show month ..... June pg. 61
Investment casters directory ..... January pg. 52
Investment casting (materials & equipment) directory ..... January pg. 158
Investment casting "Profile '77" ..... November pg. 43
Iron powder makes tough, magnetic P/M parts ..... July pg. 30
Is strand cast billet the forging material of the future? — Part I ..... October pg. 51
Is strand cast billet the forging material of the future? — Part II ..... November pg. 27
Is strand cast billet the forging material of the future? — Part III ..... December pg. 29
Lubricants help expand roll forming capabilities ..... February pg. 26
Lubricants, quenches & hydraulic fluids for your applications ..... September pg. 120
Many extrusions in fabricator's industrial products ..... August pg. 32
Materials conference program selected ..... February pg. 33
1976 Materials Show ..... October pg. 28
Materials Show will feature custom producers ..... May pg. 68
Microwave energy beams new benefits to investment casters ..... May pg. 48
Molten metal pumps speed die casting production ..... March pg. 47
More roll forming design ideas ..... September pg. 118
More than 40 companies currently signed up to exhibit at Materials Show ..... July pg. 40
OSHA/USA Safety & Health Conference & Exposition preview ..... April pg. 47
Part redesign leads to total economy ..... February pg. 22
Permanent mold & split mold casters directory ..... January pg. 62
Permanent mold & split mold casting (materials & equipment) directory ..... January pg. 173
P/M conference features new technology, markets ..... August pg. 56
P/M parts producers directory ..... January pg. 67
Powder metallurgy (materials & equipment) directory ..... January pg. 178
P/M production at Honeywell/Golden Valley ..... June pg. 39
Powder Metallurgy "Profile '77" ..... November pg. 44
P/M "Showstoppers" ..... June pg. 66
P/M "Showstoppers" ..... August pg. 57
Precision hot forgings are made on high-speed machines ..... June pg. 47
Precision investment castings make the mark ..... September pg. 110
Preview of spring postcard promotion ..... July pg. 43
Profit maximization at the design stage ..... March pg. 41
Related equipment & supplies directory ..... January pg. 200
Roll formers directory ..... January pg. 77
Roll forming looks for ways to educate designers ..... March pg. 38
Roll forming (materials & equipment) directory ..... January pg. 197
Roll forming "Profile '77" ..... November pg. 47
Selecting a die casting trim press ..... June pg. 42
Sophisticated control boosts die casting productivity ..... July pg. 26
1976-1977 Technical Literature File ..... September pg. 15
"Thermal Tech" college to solve forge heating problems ..... December pg. 38
Thin wall zinc die castings cut automotive production and material cost ..... September pg. 108
Three die castings make this vacuum cleaner more competitive ..... March pg. 30
Transportation — the turning point ..... February pg. 17
25 years of advancing the science of die casting ..... October pg. 56
Two opportunities for job shops and custom producers ..... April pg. 48
Uniform quality and reduced labor support trend toward industrial robots ..... May pg. 62
Value added is where the action is in steel forgings ..... October pg. 59
What regulatory agencies can mean to your plant's operations ..... May pg. 29
What's new in roll forming equipment & supplies ..... May pg. 37
World of extrusions ..... August pg. 25
